

PRODUCT SPECIFICATIONS

AlumiGraphics® Grip is a printable media for wide format digital printers that applies direct to an infinite variety of surfaces including sealed and unsealed concrete, asphalt, brick, tile, terrazzo, marble, and vinyl flooring as well as brick, stucco, cinderblock and other exterior masonry wall surfaces.

Differentiators of AlumiGraphics® Grip over vinyl media, stenciling, chalk and painting

- Rugged **aluminum foil material** naturally conforms to the texture of rough or smooth surfaces, appears as a painted graphic
- **Wide 53 inch media** provides greater coverage and production yield; available in 30', 75' and 150' rolls
- Print direct to the uniquely textured surface; **no over laminate required**
- High friction surface provides dual characteristics of **exceptional slip resistance** exceeding international anti-slip standards and **reflectivity** for excellent nighttime visibility
- Proven durability for short term and long term use that **withstands heavy pedestrian traffic** in hot, cold and wet weather environments for up to 1 year
- **Easy installation and removal** with a high performance pressure sensitive adhesive; sweep the surface, peel off the liner and apply to the desired surface
- **Pressure sensitive acrylic adhesive** backing provides superior holding strength and does not require professional installation
- Simple peel off removal with typically **no residue remaining** on surface
- Contains no PVC or hazardous ingredients and can be **disposed with aluminum recycling**

Types of Printers & Results

- UV Curing = best print & color quality plus longevity
- Latex (new models) = great imprint and cost efficient
- Solvent = lighter color saturation, less vibrant imprint, and good short term

Physical Properties

Thickness:	
Film	16 mil.
Adhesive	2 mil.
Liner	5 mil.

PRODUCT SPECIFICATIONS

Storage

Product can safely be stored for twelve (12) months in original packaging, laying flat in a cool, dry area
50° – 90°F / 10° - 32°C.

Service Temperature Range

-40° - 176°F / -40°C - 80°C

Minimum Application Temperature

32°F / 0°C or warmer

Sign Ordinance Compliancy

AlumiGraphics® Grip is landscape friendly signage that is perfect in locations with restrictions or ordinances on vertical signs and is also an alternative to banners

Suggested Applications

- Sidewalks & Walkways
- Entrances & Vestibules
- Stairs, Aisles & Rows
- Patios & Courtyards
- Elevator & Escalator Entries
- Parking Spaces & Curbs
- Factory & Warehouse
- Concourse & Landings
- Exterior Walls & Facades
